## GET SUN-KISSED WITH MILETI SWIMWEAR

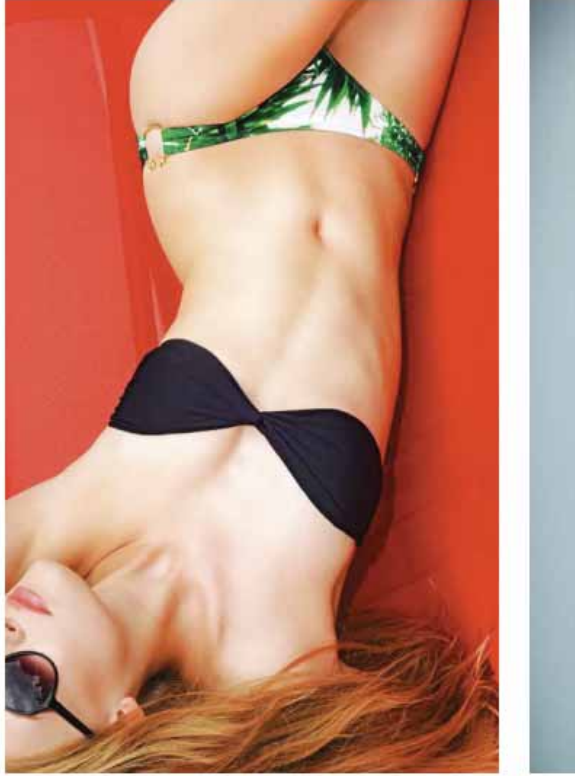

BY MEERA | FASHION | 01 MARCH 2013, FRIDAY

Since its burst into the swimwear industry in 2011, **Mileti** has produced collections that combine unexpected colors, patterns, and silhouettes into seamless, chic pieces. Whether your purpose is to head to a gorgeous resort on a tropical island, or simply to laze around on the beach, Mileti has a wide range of options for swimwear. While neutral-toned hues, such as khaki, grey, white, and black are often incorporated in the bikinis and tankinis, other bold colors are making an appearance in the 2013 collection. Sparks of lavender, tangerine, and turquoise make a splash in between solid tones, creating an exotic vibe. Constructed from **Riveria** material, an Italian fabric known for exceptional protection and comfort, the swimsuits provide both versatility and glamour.

While some may opt for the figure-hugging, yet perfectly accentuating, one-pieces, others may choose Milet's distinctive two-pieces. One-piece swimsuits feature interesting twists, with details such as the halter neck or cross-body silhouettes. Bikinis are just as form-flattering, and perfect to display glowing tans during Spring and Summer. Various swimwear styles are available, including bandeaus, maillots, and toga maillots. Suitable for any shape, style, and season, Milet swimwear will soon be sold at **Urban Outfitters** and at multiple **Nikki Beach** outlets.

A fun twist to Milet's pieces is the countless combinations you can create yourself. Bikini tops and bottoms can be bought separately, then mixed and matched for an utterly unique look. Figure-flattering, body-con swimsuits are a classic trademark of Milet's collections; each piece fits and most certainly flatters all different body shapes.

*Priced from SGD 75 to SGD 299. The Mileti Lipsi collection will be available in stores from end February 2013 onwards and Mileti's online store from March 2013 onwards.*
